II . Installation Steps For Pet Cot Bed

Please read notes on page3 before assembling

(1)

Separate the velcro on the back of cover and insert the metal pipe A into the fabric as illustrated

(2)

Insert 2 bed legs B into metal pipe A

(3)

Insert 2 metal pipes C into the bed legs B as illustrated

(4)

Firstly, connect 2 plastic parts D to the bed support legs as illustrated, then insert plastic parts D to metal pipes C

(5)

Insert 2 metal pipes C into the plastic part D Repeat (4), Insert 2 metal pipes C into the plastic part D

(6)

Connect metal pipe A with 2 bed legs B then insert B into pipe C

(7)

Put hardily and over the metal pipe A then stick the velcro (See note 3)

(8)

Turn over and flat the pet cot

Notes:

1. To keep the bed and cover flat, please adjust the fabric with some force to make them in right position when assembling
2. For step (1)- (6), please align metal pipes with plastic parts first, then insert the pipes into the plastic parts
3. For step (7), the velcro may not be completely covered, as the cover being used for a period of time, it will be a little loose than before, then you could pull and cover the velcro completely.

III . Installation Steps For Canopy

(9)

Parts G and H required

(10)

Insert 4 tent poles H to the plastic connectors through the holes on the canopy

(11)

Canopy finished!(Noted: to connect the canopy ,
the pet cot correctly, big angles of canopy
should be ponited to long sides of the cot
small angles to short sides)

(12)

Plug the tent ends to the corners of the cot

(13)

Secure the canopy with the bungee
cords at each corner of the bed legs B

(14)

Finished! (Note: The canopy side
with plastic conectors is outward)

IV. Important information:

This pet cot is not a toy, although it made by sturdy steel pipe, plastic parts and oxford fabric but is still cannot being teared, bit and scratched by pet for long time. Try to avoid this damage We recommend you accompany and train your lovely pet, so they could get used to the pet cot and it also will be durable for longer time.
